How to complete the Examiners Pairing Sheet:

If anything outlined below is not clear, please do not hesitate to contact us at international.examiners@mrcpuk.org.

Please do not worry if you do not know your Centre ID, this can be added by central office. The correct Hospital & Host Examiner needs to be added for each day. Please inform us of the time that Examiners must arrive for examining both the entire day, or examining the AM/PM only.

We would appreciate if you could note the last time the Pairing Sheet was updated, along with your initials.

Please select the status of each examiner using the drop down box.

We also require the information (name & email address) of any trainees who will be training on the day.

The top half of this table should be used for UK Examiners and the bottom half for International Local

This section of the new pairing sheet should be used to give information of all examiners who are examining that day. This may seem like a lot of work but do not forget that for the majority of the days you can copy and paste the UK Examiners and the majority of the Local International Examiners will stay the same.

A local reserve examiner is not obligatory (as long as you have an 11th Examiner).

Please note any UK Examiners off that day (either AM, PM or All Day).
