

European Specialty Examination in Nephrology 2020 Selected Examination Metrics

From February 2020, the Specialty Certificate Examination (SCE) in Nephrology and the European Certificate in Nephrology that was originally developed between the UEMS Renal Section and Boards and the European Renal Association – European Dialysis and Transplant Association (ERA-EDTA) became a single examination called the European Specialty Examination in Nephrology (ESENeph).

The 2020 ESENeph was sat by 291 candidates of whom 97 were self-declared UK trainees. Candidates who did not declare their training details are reported as 'Other' (194). 41 candidates sat in European centres other than UK and they are reported as European candidates.

GMC approved results equating from September 2020 and therefore this exam will be equated from 2021.

Pass Mark

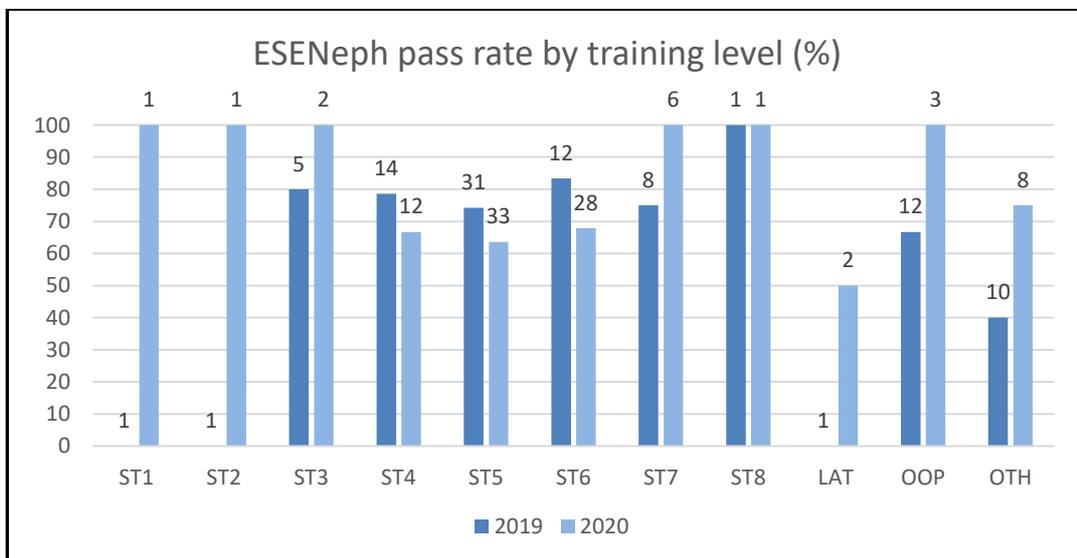

The pass mark for this examination was established by using the Hofstee compromise method which combines the mean scores of the standard setting group with UK trainees' performance.

For the 2020 ESENeph examination the pass mark was set at **63.8% (127/199)**.

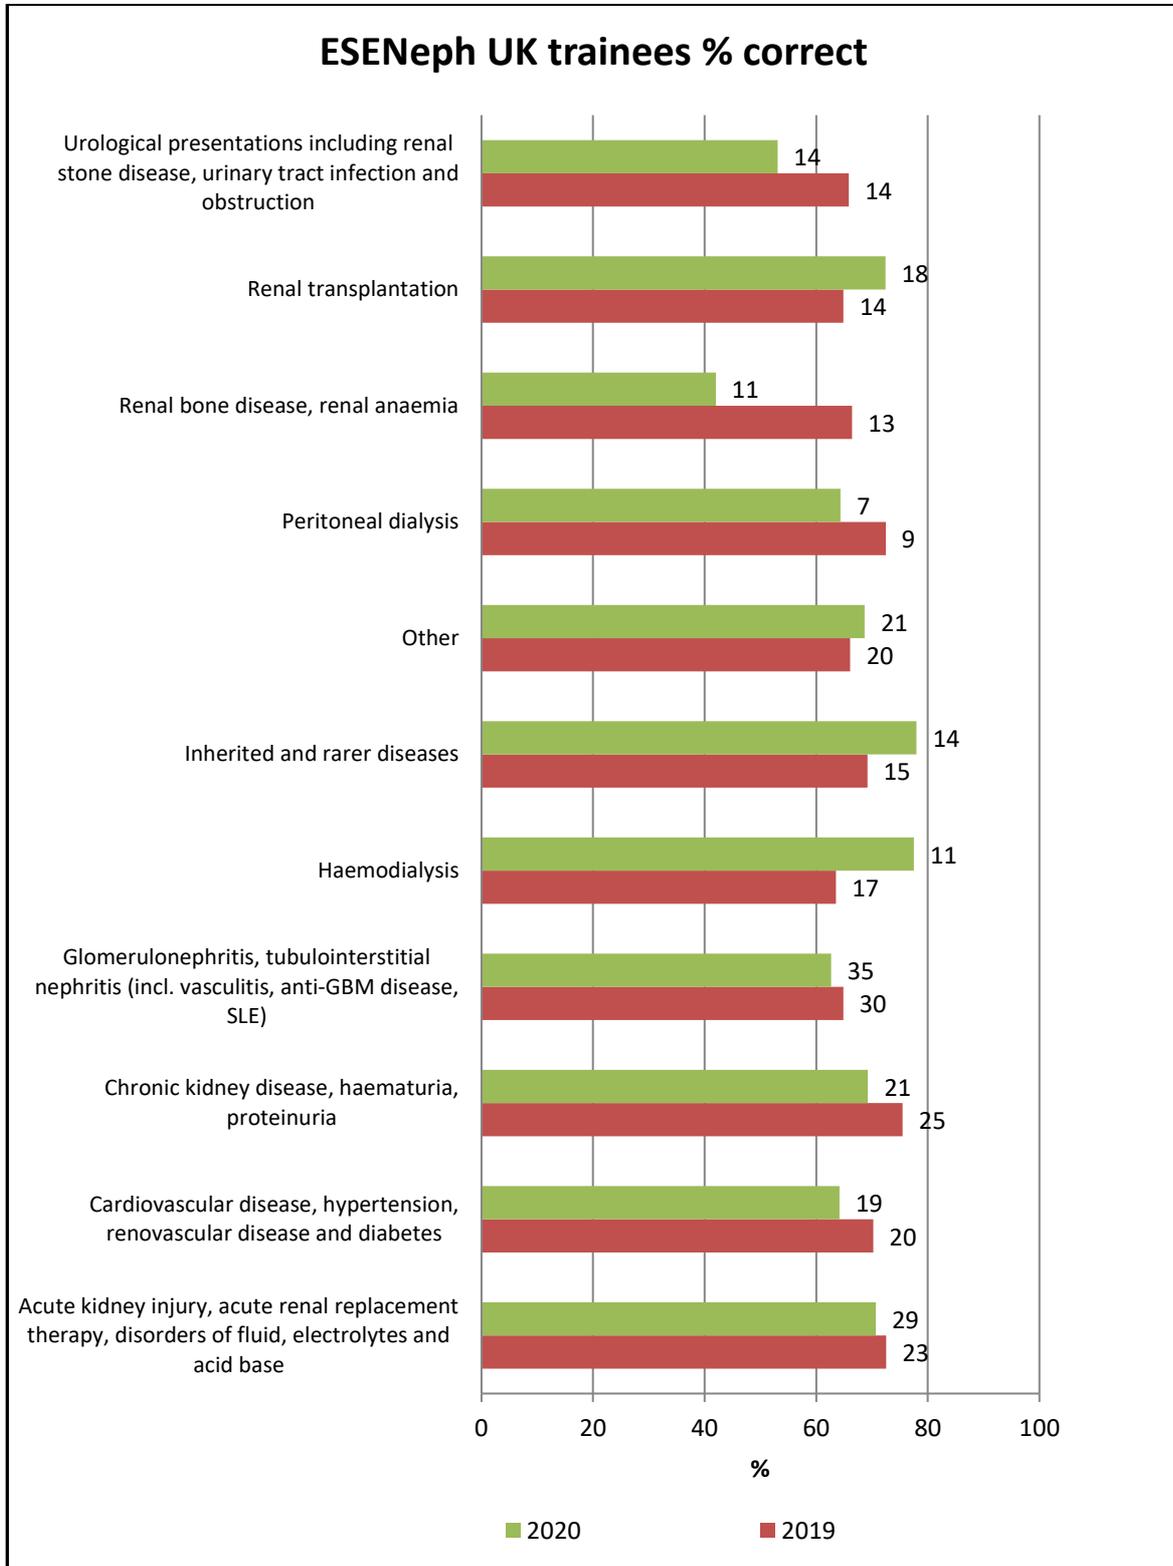

More information on standard setting can be found here
